TECHNICAL SKILLS

Category	Skills
Programming Languages	Python, JavaScript, HTML
Web Development	React.js, Vite
Database	Supabase
Tools & Technologies	Git, GitHub, VS Code

PROJECTS Project 1 — GroomGo: Smart Car Rental & Wedding Transportation Platform

Technologies: HTML, JavaScript, React.js, Vite, Supabase

- Developed a web-based car rental platform focused on wedding transportation, luxury groom cars, fleets, and local routes.
- Built features for browsing vehicles, packages, and rental services with a user-friendly interface.
- Founded and developed GroomGo as a small-scale startup serving the local market.

Project2— Explainable AI-Based Disease Prediction System *(Ongoing Final-Year Project)*

Technologies: Python, Machine Learning, Explainable AI (XAI)

- Developing an AI-based system for disease prediction using healthcare data.
- Applying Explainable AI (XAI) techniques to make model predictions understandable and provide insights into why a particular prediction is made.
- The project focuses on improving transparency, interpretability, and user trust in AI-based-disease prediction.

TRAINING / INTERNSHIP Data Science with Python — eTrain Internship

Duration:45Days

- Completed a 45-day internship focused on Data Science with Python.
- Gained practical exposure to Python programming and basic data science concepts.
- Worked on data analysis and problem-solving using Python

CERTIFICATIONS

e-Train Internship Certificate— Data Science with Python

Duration→45-DayInternship

BUSINESS / ENTREPRENEURIAL EXPERIENCE
